

PLANT: **Common Burdock**
(*Arctium minus*)

Biennial

Proposed for Fallon County
Noxious Weed list, not found
on State list.

Growth: 3-10 Feet tall in the 2nd year

I.D. Leaves are very large, hairy.
Flowers are purple.
Flowers are covered in long hairy barbs.

Other: Burs become tangled in the hair of livestock.
Plants are generally found in creek bottoms,
roadsides and pasture waste areas.

**THIS PLANT IS OFTEN MISTAKEN FOR RHUBARB WHICH
LOOKS ALMOST IDENTICAL TO BURDOCK.**
